Edition 23

# AUSTRALIAN NOTICES TO MARINERS

**Notices 949 - 987**

Published fortnightly by the Australian Hydrographic Office

Australian Notices to Mariners are the authority for correcting charts and publications published by the Australian Hydrographic Office covering Australia, Papua New Guinea, Solomon Islands, Australian Antarctic Territory and Timor-Leste.

Commodore R.L. PHILLIPS RAN  
*Hydrographer of Australia*

## IMPORTANT NOTICE

This edition of Notices to Mariners includes all significant information affecting AHO products which the AHO has become aware of since the last edition. All reasonable efforts have been made to ensure the accuracy and completeness of the information, including third party information, on which these updates are based. The AHO regards third parties from which it receives information as reliable, however the AHO cannot verify all such information and errors may therefore exist. The AHO does not accept liability for errors in third party information.

---

## GENERAL INSTRUCTIONS

The substance of these notices should be inserted on the charts affected.

Bearings are referred to the true compass and are reckoned clockwise from North; those relating to lights are given as seen by an observer from seaward.

Positions quoted in notices relate to WGS84 which is the horizontal datum for all charts produced by the Australian Hydrographic Office.

The range quoted for a light is its nominal range.

Depths are with reference to the chart datum of each chart. Heights are above mean high water springs or mean higher high water, as appropriate.

The capital letter (P) or (T) after the number of any notice denotes a preliminary or temporary notice respectively, which are contained separately at the end of the permanent notices.

---

## REPORTING OF DANGERS

Mariners are particularly requested to notify the AUSTRALIAN HYDROGRAPHIC OFFICE, Locked Bag 8801 Wollongong, NSW 2500 (e-mail [datacentre@hydro.gov.au](mailto:datacentre@hydro.gov.au) or, alternatively by filling in and submitting the [Hydrographic Notes](#) forms located on the web site – [www.hydro.gov.au](http://www.hydro.gov.au)), immediately on the discovery of new dangers or suspected dangers to navigation. For changes or defects in aids to navigation notify AusSAR (Fax 02-6230 6868 or email [rccaus@amsa.gov.au](mailto:rccaus@amsa.gov.au)).

---

## AUTHORISED USE

Copies of Australian notices are available free of charge from the Australian Hydrographic Office (AHO) website ([www.hydro.gov.au](http://www.hydro.gov.au)) and through the eNotices (email) service ([www.hydro.gov.au/enotices/enotices.htm](http://www.hydro.gov.au/enotices/enotices.htm)).

Individual Notices may be copied for the purpose of inserting Notice substance on official charts and publications. Paper copies may be printed by chart agents and distributed to customers on a cost recovery basis. Participating chart agents are listed on the AHO website as providing a 'Paper Notices to Mariners' service ([www.hydro.gov.au/webapps/jsp/agents/agents-list.jsp](http://www.hydro.gov.au/webapps/jsp/agents/agents-list.jsp)). Copies of the notices may not be sold for profit without prior written agreement.

*Remarks*

The Solomon Islands National Tide Tables 2024 provides tidal information for Solomon Islands ports. Now available as a pdf download from the AHO website products download page ([www.hydro.gov.au/webapps/jsp/downloads/products.jsp](http://www.hydro.gov.au/webapps/jsp/downloads/products.jsp)).

**Timor Leste National Tide Tables 2024**
*Remarks*

The Timor Leste National Tide Tables 2024 provides tidal information for Timor Leste ports. Now available as a pdf download from the AHO website products download page ([www.hydro.gov.au/webapps/jsp/downloads/products.jsp](http://www.hydro.gov.au/webapps/jsp/downloads/products.jsp)).

**Chart permanently withdrawn**

Charts listed above as withdrawn no longer meet chart carriage requirements and should be marked as "superseded" and replaced with the new chart/ new edition listed prior to passage through the area covered by the new chart.

When placing orders with a chart agent between notice of forthcoming edition and its publication, mariners should advise whether their order pertains to the current edition or the new edition.

For further details refer to the AHO website at [www.hydro.gov.au](http://www.hydro.gov.au) for new edition and new chart stock arrival information.

**951 AUSTRALIA - AusTides 2024**

Australian Hydrographic Office

Mariners are advised of two errors in AusTides2024.

Predicted tidal stream data should only be obtained from the numerical table beneath the flow-rate graph. The graph displaying flow-rate amplitudes over time must be disregarded. Note that tidal height predictions are unaffected.

Zulu time predictions for Secondary ports have twice the number of hours subtracted. For example, Christmas Island has a standard time of UTC+7. However, when you ask the app to display or export predictions in Zulu, it gives times that are effectively UTC-7 (i.e. UTC+7 à UTC/Zulu à UTC-7).

Please action this notice until further advice.
